

Study Group

Summer 2012 Study Group • June 1 – August 31 • Facilitated by Annie Danberg

We know that it can be challenging to make time for your creative life as well as face the voices of criticism and discouragement that arise when painting on your own. Study Group provides you with the support and encouragement you need to develop and maintain a creative practice at home. You can participate wherever you live because you'll keep in touch with the group through bimonthly phone calls, a private interactive blog, and individual connection with a Painting Experience facilitator.

During a Painting Experience workshop, many participants experience a new presence, vitality, and aliveness. Study Group is a way to bring those discoveries home with you — to live the painting process out into life. The ongoing group connection helps you to stay connected to what is true and authentic, to grow your capacity for living creatively and wakefully. We hope you'll join us!

Details:

- Study Group meets for 3 months at a time and is led by a senior facilitator of the Painting Experience.
- Fee: \$350. (\$75 discount for continuing study group participants.)
- Prior attendance in a Painting Experience workshop is recommended but not essential. If you haven't attended one of our workshops, we require an interview with the facilitator to ensure that the experience is what you are looking for.
- Group size is limited to 6–8 participants. Registration deadline: May 25.

- Prior to the group start date, you will receive an invitation from the facilitator to join the group blog. Technical support is provided — fear not, the blog is fun and easy to use.
- As a participant in Study Group, you will have the option of connecting with the facilitator to discuss your paintings and process individually by phone, and by sending your images by email.

“Study Group is so important to me. It really helps me stay dedicated to my creative process and to work regularly. Study Group keeps me from feeling isolated and gives me courage to stay with the process.”
